Lab Topology	4
Lab Settings	5

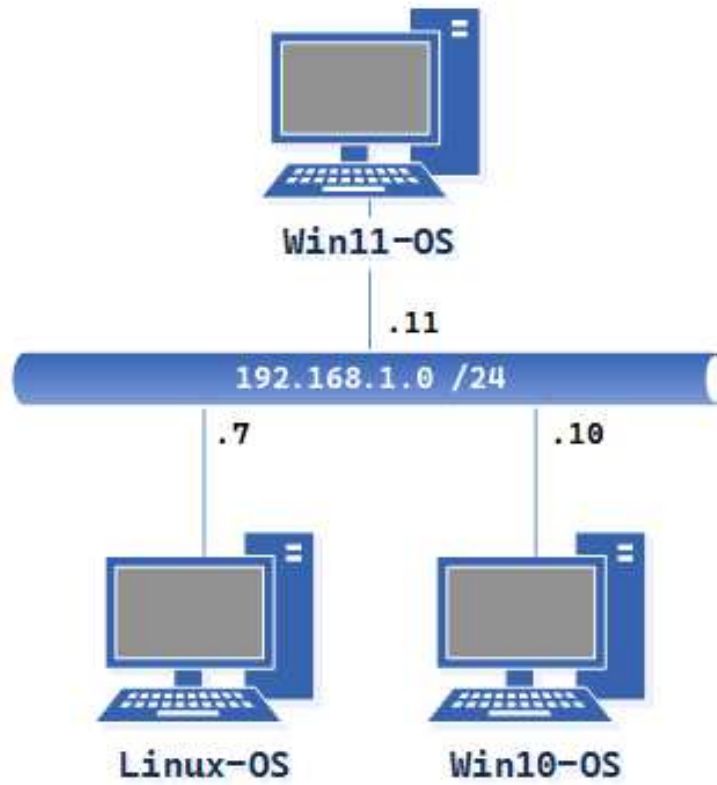

Introduction

This sandbox environment allows you to freely access all the virtual machines in the *NDG Network+* pod environment. This open environment can be used for a variety of purposes, such as booting up all the VMs available in the pod, providing additional practice on your own, the ability to create custom labs, and/or troubleshooting any problems if you are an administrator.

Objective

- Log in and navigate the *NDG Network+* environment

Lab Topology

Lab Settings

The table below provides basic information about the pod environment, such as IP settings and VM user credentials.

Virtual Machine	IP Address	Account (if needed)	Password (if needed)
Linux-OS	192.168.1.7 / 24	sysadmin	NDGlabpass123!
Win10-OS	192.168.1.10 / 24	sysadmin	NDGlabpass123!
Win11-OS	192.168.1.11 / 24	sysadmin	NDGlabpass123!
